### Publication Cost

The publication cost of the electric proceedings will be owned by the conference organizer. The cost will be calculated by the total pages of the proceedings and the number of published papers. As of July 2021, the page charge was 3,500 yen and the publishing cost was 2,700 yen per paper (the total expense was 23,700 yen (175 US dollars) for, for example, a 6-page paper). Because of price fluctuations, actual expenses will be determined at the time of contract.

The information provided here will not be used for any purpose other than publication of the proceedings.
